

SAFETY DATA SHEET (SDS)

Section 1. Identification

Product identifier	TSPE 500ml
Other means of identification	BO-1985-5
Recommended use and restrictions on use	Soap/Cleaner
Initial supplier identifier	Kosmic Surf-Pro Inc. 530, rue Charbonneau RR 102, Saint-Amable, QC J0L 1N0 450-649-3901 & 1-877-711-0711
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number 613-996-6666

Section 2. Hazard identification

Classification of hazardous product (name of the category or subcategory of the hazard class)	
NOT REGULATED	
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)	
None	
Other hazards known	None

Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Mixture of ingredients (contains more than 80% of water)	---	---
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).		

Section 4. First-aid measures

Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
Skin contact	IF ON SKIN: Wash with plenty of water (5-10 minutes).
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (5-10 minutes). Remove contact lenses, if present and easy to do.
Most important symptoms and effects (acute or delayed)	Causes transient mild eye and skin irritation.
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.

Section 5. Fire-fighting measures

Specific hazards of the hazardous product (hazardous combustion products)
Carbon oxides and other irritant/toxic gases and fumes.
Suitable and unsuitable extinguishing media
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.
Special protective equipment and precautions for fire-fighters
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).
Methods and materials for containment and cleaning up
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.
Conditions for safe storage, including any incompatibilities
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection						
Control parameters (biological limit values or exposure limit values and source of those values)						
Exposure limits: ACGIH – TLV-TWA & PEL-TWA none.						
Appropriate engineering controls						
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.						
Individual protection measures/personal protective equipment						
Respiratory protection is required if the concentrations are higher than the exposure~ limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.						
Section 9. Physical and chemical properties						
Physical state		Liquid		pH	~ 8.5-10.5	
Colour	Yellow		Kinematic viscosity		Not available	
Odour	Characteristic		Solubility	Soluble		
Melting/freezing point		Not available		Partition coefficient - n-octanol/water (log)		Not available
Initial boiling point/ initial/range		Not available		Vapour pressure		Not available
Flammability		Not available		Density/relative density		Not available
Upper and lower flammability/explosive limits		Not available		Relative vapour density		Not available
Flash point		Not available		Particle characteristics		Not available
Auto-ignition temperature		Not available		VOC	Not available	
Decomposition temperature		Not available		Other	None known	
Section 10. Stability and reactivity						
Reactivity						
Does not react under the recommended storage and handling conditions prescribed.						
Chemical stability						
Stable under the recommended storage and handling conditions prescribed.						
Possibility of hazardous reactions						
None						
Conditions to avoid (static discharge, shock or vibration)						
None						
Incompatible materials						
Oxidizing materials;						
Hazardous decomposition products						
None known						
Section 11. Toxicological information						
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)						
Causes transient mild eye and skin irritation.						
Symptoms related to the physical, chemical and toxicological characteristics						
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing.						
Delayed and immediate effects (chronic effects from short-term and long-term exposure)						
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.						
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)						
No data available.						
ATE not available in this document.						
Section 12. Ecological information						
Ecotoxicity (aquatic and terrestrial information)						
No data available.						
Persistence and degradability		No data available				
Bioaccumulative potential		No bioaccumulation is to be expected.				
Mobility in soil		No data available				
Other adverse effects		No data available				
Section 13. Disposal considerations						
Information on safe handling for disposal/methods of disposal/contaminated packaging						
Dispose of contents/container into safe container in accordance with local, regional or national regulations.						

Section 14. Transport information	
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations	
Not regulated	
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)	
Not regulated	
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)	
Not regulated	
Special precautions (transport/conveyance)	None
Environmental hazards (IMDG or other)	None
Section 15. Regulatory information	
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL
Safety/health/environmental outside regulations specifics	
United States OSHA information: This product is regulated according to OSHA (29 CFR). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. United States TCSA information: Refer to the ingredients listed in Section 3. National Fire Protection Association (NFPA): HEALTH: 0 FLAMMABILITY: 0 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3. HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe Proposition 65: No ingredient known to the State of California to cause cancer or other reproductive harm.	
Section 16. Other information	
Date of the latest revision of the safety data sheet	May 22, 2025 version 5 (NSS ENTREPRISE INC.)
Corrections	New template
References	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
