

SURF – PRO

TIME SAVER SURFACE CLEANER

TECHNICAL DATA SHEET

Name : **THE PAINT & VARNISH BUSTER**
Product : Intelligent Stripper
Code : BO-1970-1/BO-1970-4

MADE IN QUÉBEC

1.1 PRODUCT DESCRIPTION:

based on methylene chloride with granules to detect the different coatings installed on furniture, metal, wood, concrete over the years. Conventional paint strippers, despite their excellent quality, can only provide maximum performance on coatings where an oil-based paint or varnish has been applied. With a process exclusive to Surf-Pro to incorporate in this gel solvents hitherto incompatible, give maximum performance in a short time and inconvenience.

1.2 USES: THE PAINT & VARNISH BUSTER is used both indoors and outdoors. On vertical surfaces freezing for about 30 to 45 minutes will allow it to not flow. Applies safely on antiques (furniture), wood, metal (automobile bodywork), painted or tar-stained brick and some plastics (rigorous obligation to make a test before).

1.3 CHARACTERISTIC:

practically odorless in action (very slow evaporation rate) Easily detects and removes these coatings: oil paints, oil paints and lattices, latex and 100% acrylic, solid lacquers, polymer compounds, lead-based paints and dyes, roxotones, paint-based epoxy and urethane, melamine finished paints, crystallized finishes, etc. Can simultaneously remove 3 to 5 different types of coating in a single application. Safe application indoors as long as the room is well ventilated.

1.4 RESTRICTIONS: Do not apply to fabrics, floor tiles, acrylic, fiberglass, synthetic carpets.

1.5 GUARANTEE: This high-quality product complies with the descriptions in this sheet and on the labels. The manufacturer's warranty is limited to the quality and the refund of its purchase price. This product will provide total satisfaction if stored and used in accordance with the manufacturer's recommendations.

SAFETY MEASURES:

Avoid all contact with skin and eyes.
Wear gloves and glasses.
Keep in a well-ventilated place.
Keep out of the reach of children.
Keep containers closed when not in use.
First Aid: Refer to MSDS or product label.

JP'S TIPS :

TECHNICAL INFORMATION

- 2.1 Chemical composition:** Methylene chloride product with surfactants and cellulose
- 2.2 Container size:** Metal container 945 ml-3.78 liters
18.9 liters
- 2.3 Appearance:** Milky viscous gel with performance of yield between 15 C and 25 C
- 2.4 Storage:** The product must be stored in a dry place and in tightly closed containers. The temperature of the storage room must be maintained between 10 C and 30 c. Ensure adequate ventilation of the storage area.
- 2.5 Physical and chemical properties:**
- | | |
|--------------------|-------------|
| • Boiling point | 39 o c |
| • Freezing point | -96,7o c |
| • Water solubility | 2g/100g eau |
| • Viscosity | N/D |
| • Density | 1.2 |
| • Flash Point | N/D |
| • PH | neutral |

APPLICATION PROCEDURES

- 3.1** Apply with a silk brush on the surface to be stripped. The action time of THE PAINT & VARNISH BUSTE is at least 15 minutes because it is necessary to allow time for all the special solvents to do their work properly. During this time, THE PAINT & VARNISH BUSTE removes layer by layer to finally transfer them into its gel. Then, with a wood or metal scraper, you can recover the multiple layers of coatings that you had to remove.
- 3.2** For surfaces called crystallized (surface where a varnish has been applied for several years) a light sanding was the ideal method to save time and save the. THE PAINT & VARNISH BUSTER Indeed, THE PAINT & VARNISH BUSTE will infiltrate more quickly, breaking the glazed effect varnished.
- 3.3 Neutralisation:** Because THE PAINT & VARNISH BUSTER evaporates very slowly, it must be neutralized with methyl hydrate (wood alcohol). THE PAINT & VARNISH BUSTER recognizes that solvent which has the effect of stopping its action on the field. In addition, methyl hydrate evaporates to 99% leaving no residual. This will be useful when it comes time to cover the furniture pickled in this case with a dye.

NOTE:

THE PAINT & VARNISH BUSTE, since its marketing, has only received praise from users. Whether it's stripping professionals or people with very hard surfaces to strip, they were delighted with the efficiency of THE PAINT & VARNISH BUSTE and impressed with the time and money saving.
